It hung upon the wall;

Life, liberty and justice then

From the Philadelphia Sunday Mercury.

Six years ago the stars and stripes Were floating proud and free; Without an army on the land,

The Constitution was our guide,

Were free to one and all. Six years ago our State was free From negro equality's alarms;

And in the place of national debts, We cheerished national charms.

Then the Union blessings came to us, In place of " Union duns ; ' And Congress sent out garden seed In place of guarding guns.

Six years ago we had no use For "provost guards and clowns" With big brass eagles on their caps, Parading through our towns.

A police sergeant with his squad Of half a dozen men, Was quite enough, by day or night, To quell a riot then. Six years ago the press was free, And men could speak their mind; Nor had the "habeas corpus writ" Been kicked clear out behind. We had no saucy negroes then,

Nor did we ever read about Amalgamation balls. Six years ago a wench would wed With "Pomp" or "Sambo" freely, But now she wants a " Stevens," A "Sumner" or a "Greeley;

For o'er the spirit of their dream

To crowd our Senate Halls ;

Has swept a mighty wave; The negro is the master now, The white man is the slave. Six years ago, the Sunny South Had not been made a waste; Nor had the flag of Liberty Been torn in angry haste.

But Union, peace and harmony

Found refuge in our land; And the warm fond ties of fellowship United us as a band. Six years ago, a note on bank Was just as good as gold; Nor did we have to put a stamp On everything we sold. But now 'tis stamps on all we get, Or give, or sell, or buy; They tax us now because we live,

And stamp us when we die. Six years ago, the Democrats Were masters in the House And every person, North and South, But now the Abolition crew Have undertook to do the job : The negro is their "hobby horse,"

Their object is to rob. THE CLOSING SCENE. The following is pronounced by the Westminster Reiew, to be unquestionable the finest American poem ever

When all the fields are lying brown and bare. O'er the dun waters widening in the vales, Sent down the air a greeting to the mills,

Within the sober realms of leafless trees,

On the dull thunder of alternate flails.

The russet year inhaled the dreamy air :

The hills seemed further and the streams sang low, As in a dream the distant woodman hewed His winter log, with many a muffled blow.

The embattled forests, erewhile armed with gold,

Their banners bright with every martial hue,

Now stood like some sad beaten host of old,

Withdrawn afar in time's remotest blue. On somber wings the vulture tried his flight ; The dove scarce heard his sighing mate's complaint And like a star, slow drooping in the light,

The village church vane seemed to pale and faint

Crew thrice-and all was stiller than before Silent, till some replying warbler blew His alten horn, and then was heard no more.

Where erst the jay within the elm's tall crest Made garrulous trouble round her unfledged young And where the oriele hung her swaying nest, By every light wing like a censor swung. Where sang the noisy martins of the caves.

The busy swallows circling ever near-Foreboding as the rustic mind believes, An earthly harvest and a plenteous year Where every bird that walked the vernal feast,

To warn the reaper of the rosy lust ; All now was sunless, empty and forlorn. Alone, from out the stubble, piped the quail; And croaked the crow through all the dreary gloom, Alone, the pheasant, drumming in the vale, Made echo in the distant cottage loom.

Shook the sweet slumber from its wings at morn;

There was no bud, no bloom upon the bowers : The spiders moved their thin shrouds night by night, The thistle down, the only ghost of flowers, Sailed slowly by-passed noiseless out of sight

Amid all this-in this most dreary air, And where the woodbine shed upon the porch Its crimson leaves, as if the year stood there, Firing the blood with its inverted torch.

The white-haired matron, with monotonous tread, lied the swift wheel, and with her joyous mein Sat like a fate, and watched the flying thread. She had known sorrow. He had walked with her, Oft supped, and broke with her the ashen crust, And in the dead leaves still she heard the stir

While yet her cheek was bright with summer bloom, Her country summoned, and she gave her all; And twice war bowed to her his sable plume-

Of his thick mantle trailing in the dust.

And struck for liberty the dving blow Nor him who, to his sire and country true, Fell 'mid the ranks of the invading foe. Long, but not loud, the drooping wheel went on, Like the low murmur of a hive at noon;

Long, but not loud, the memory of the gone Breathed through her lips a sad and tremulous tone. At last the thread was snapped, her head was bowed; Life dropped the distaff through her hands serene,

And loving neighbors smothered her careful shroud. While death and winter closed the autumn scene. "Mother," said little Ned, one morning, after having fallen out of bed, "I think I know why I fell out of bed last night. It was because I slept too near when I got in." Musing a little while, as if in doubt whether he had given the right explanation, he added, "No, that wasn't the reason; it was

because I slept too near when I fell out.' A FALLEN STAR. - Jenny Lind, who was formerly the idol of the public; Jenny Lind, who for years gathered flowers and bank notes on her way, may be said to have assisted at her own funeral, as an artiste, in having unfortunately again come before the public long after her voice was no more. She was hissed by a great part of the

audience. So says a Paris letter. Dog Taxes. - The London Field notices that the tax upon dogs, or upon dogs' friends for keeping them, is returned in the financial accounts for the year ending with March, 1866, as amounting, in Great Britain to £219,313, an increase of £8,084 over the previous year.
